Fraternity and It's Definition

A fraternity (from Latin frater: "brother"; whence, "brotherhood") or fraternal organization is an organization, society, club or fraternal order traditionally of men associated together for various religious or secular aims.

Types

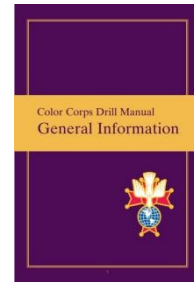

The only true distinction between a fraternity and any other form of social organizations is the implication that the members are freely associated as equals for a mutually beneficial purpose rather than because of a religious, governmental, commercial, or familial bond – although there are fraternities dedicated to each of these fields of association.

Welcome Ceremony

Today/tonight, we open this ritual and ceremony in harnessing the powers and abilities of our members.

With passionate and cordial greetings, we humbly accept and understand the individuals who will participate and partake with our group.

Let us unite in a cause that is just, and honorable, while celebrating the gifts and blessings that life has given us.

May this open a path for wealth, success and fortune to those who will/have become a part of our advocacy.

Let members increase their worth and value that people around them would respect them.

Protect the brotherhood, the alliance and those that are oppressed.

Be a person of merit and integrity that we would be lawful or professionals in whatever that we may do.

Let us preserve and protect the value of life.

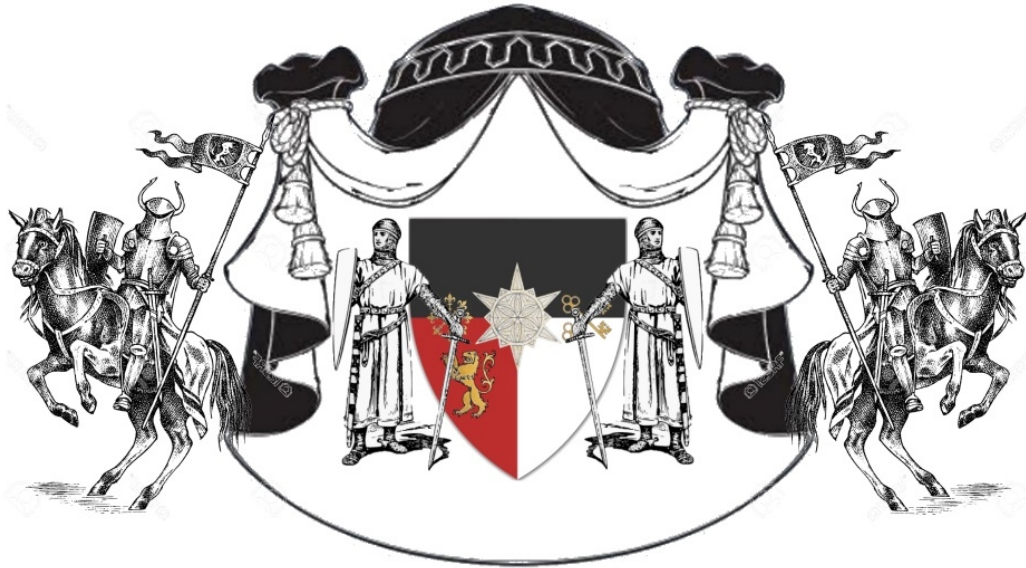

Defend against those who threaten the safety of our families, and colleagues.

With humility and respect, may we all advance and aid our comrades.

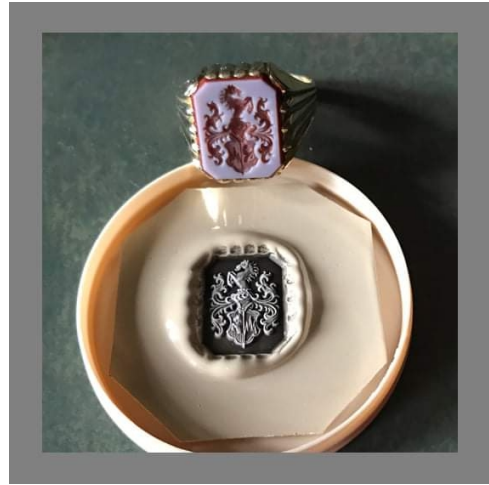

We in the Order of Meterions do hereby acknowledges the reader in taking part with the fraternity and upholding the creed and responsibilities to the best of their abilities.

Fraternal Logo

Formal Attire

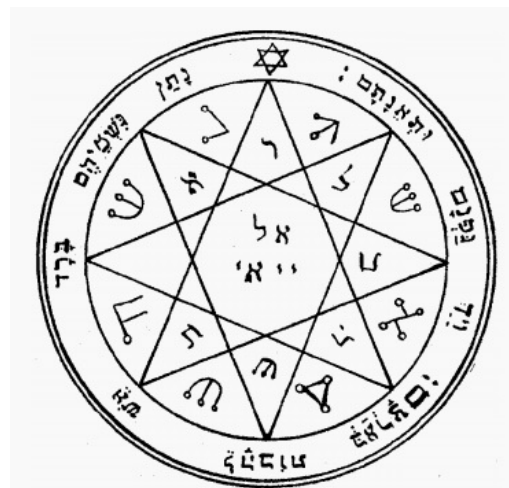

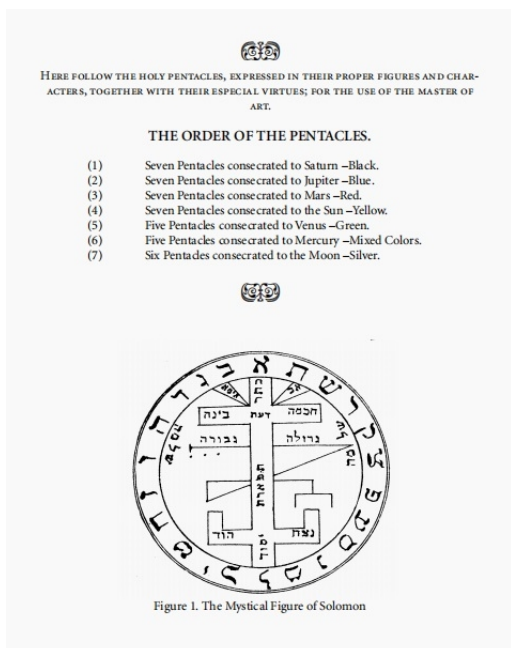

Choice of color:

The appropriate color of ties would be white, red and black. Proper etiquette, social code and courtesy on how certain colors would be worn can be found on the internet. It is deemed appropriate that members would wear proper attire on formal meetings, or ceremonies. It is not a requirement for members to be exorbitant on matters where seriousness is a requirement.

Origin of the Order of Meterions

The Seventh and Last Pentacle of Mars. – write thou this upon Virgin Parchment Paper with the blood of a bat, in the day and hour of Mars; and uncover it within the Circle, invoking the Demons Spirits of the Nature of Mars, especially those which are written in the whose Names are therein written; and thou shalt immediately see hail and tempest.

Editor's Note.– In the center of the Pentacle are the Divine Names, El and Yiai, which have the same numerical value when written in Hebrew. The Letters in Hebrew, and in the Secret Alphabet called the Celestial, compose the Names of Spirits. Round the Pentacle is:– "He gave them hail for rain, and flaming fire in their land. He smote their vines also, and their fig-trees."

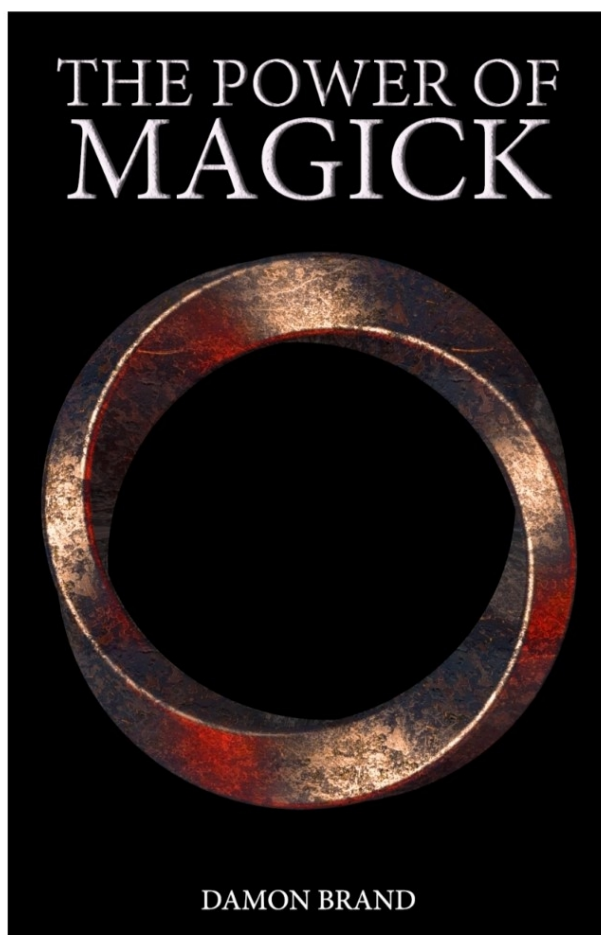

Metatron Name in Hebrew

The latter would be a more plausible explanation on the origins of the guild. And more details and information can be found in the internet.

“The twelve archangels we have found to be most effective for practical magick are Metatron, Raphael, Gabriel, Michael, Uriel, Haniel, Raziel, Iophiel, Kamael, Tzadkiel, Tzaphkiel and Sandalphon. These archangels do go by other names, and those are explored later in the book.”- quoted from the respective book

More details can be acquired upon reading the following book:
